## The Bonnie Brae Mission Statement

Accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO), Bonnie Brae (which means, "Pretty Hill") is one of the nation's preeminent therapeutic learning environments for troubled adolescent boys who have been neglected, abused, or abandoned.

True to its mission, the program at Bonnie Brae provides troubled boys with the opportunity to discover, develop, and maximize the skills necessary to become responsible young men. Throughout our 90 year history, it has been providing individualized treatment services to meet the unique needs of each youth with a caring and dedicated professional staff of doctors, nurses, counselors, clinicians, milieu therapists, and teachers preparing and implementing Individual Treatment Plans for each resident.

We emphasize each boy's potential to succeed. Our program utilizes adventure-based therapy that is designed to build trust, improve communication and problem-solving skills, and create a sense of accomplishment. Our campus includes residential facilities, athletic center, vocational education center, pool, television studio, and adventure based ropes course.

Our fully approved on-site school, implements individual education plans to meet the special needs of our students, and our classes are taught by certified special education teachers.
